

# Australian Coastal Society (SA) Coastal Forum

*“Building a Sustainable Coastal Future”*

3-4 November 2022

Marion Bay Community Hall, Yorke Peninsula

## Call for Registration and Abstracts

The South Australian Branch of the Australian Coastal Society (ACS) is organising a Coastal Forum to be held at Marion Bay on the 3<sup>rd</sup> - 4<sup>th</sup> November, 2022.

We would like to invite you to participate in this event, co-sponsored by the Yorke Peninsula Council, ACS, Coast Protection Board, Northern and Yorke Landscape Board, and the Beach and Dune Systems (BEADS) Laboratory at Flinders University.

The Forum theme is *Building a Sustainable Coastal Future*. We are living in a time of significant current and future challenges, where climate change and other human-driven impacts are likely to impact coastal towns, infrastructure, and future development. It is time for us to start building a vision of what a sustainable future will look like.

We are seeking talks or presentations that cover all areas of coastal research and management. We encourage submissions from all disciplines, from communicators, educators, government, consultants, academics, the private sector, and community members.

*All presentations will be 10 minutes long with 5 minutes question time.*

## Will my talk fit the theme?

Talks may be on any aspect of coastal science and management including (but not limited to) the topics below:

- Cultural connections
- Physical processes
- Management, monitoring, implementation and evaluation
- Climate change and impacts
- Threats and hazards
- Conservation and restoration of coastal, estuarine and marine environments
- Adaptation to climate change
- First Nations perspectives
- Legislation and policy
- Planning and development
- Shacks and their future
- Funding, collaboration and partnerships
- Research, data and information gaps

14 October 2022

# Presenters

If you would like to present at the Forum, please email [YorkeCoastalForum@gmail.com](mailto:YorkeCoastalForum@gmail.com) with the subject header 'Call for speakers' and the title of your presentation.

In the body of the email, please provide the speaker name, role or position, organisation, contact details, title of presentation and an abstract, plus any other information or requests.

The abstract is to be no more than 300 words. It is to include the following (where applicable):

Problem Statement/Purpose  
Methods/Approach  
Results/Outcomes  
Conclusions

If accepted, you will still be required to register for the forum via the registration link. We are unable to provide discounts to presenters at this time.
